# United Way Suncoast Women United: Fighting for ALICE

- Across our region, nearly 431,000 households live above poverty but below the ALICE threshold.
- The ALICE threshold cannot support the basic cost of living.
- 41% of households are at or below the ALICE threshold.
- Despite economic improvements regionally, ALICE still struggles. Increasing costs for housing, transportation and childcare outpaces growth in wages.
- ALICE is vital to our regional economy. ALICE includes recent college grads, health care professionals, underemployed professionals, and more. ALICE contributes to the success of our communities but is one setback away from potentially falling into crisis.
- As we examine the data, what becomes clear is that there is a danger of ALICE slipping into poverty.
