Advocate for additional state investments in early education, including salary increases for instructors and child care providers and support for full-day VPK programming for families most in need.

Educate local governments and encourage them to continue supporting early education programs and leveraging those investments to draw down additional state funding.

Promote state and local investments in career and technical education and support efforts to streamline local workforce development programs.

Promote fair banking initiatives and educate policymakers on the impact that increased interest rates on instalment loans would have on ALICE families.

Ensure that attainable housing legislation addresses the needs of ALICE families in the Tampa Bay region.

Advocate for policies and investments that protect renters and reduce evictions.

Support efforts to limit security deposits and housing application fees.

Support efforts to provide additional transportation options at the local level.
United Way Suncoast provides pathways to education and financial stability that create better opportunities for everyone in our community.
